CLASSIC EVENTS

PERSONALISED EVENTS

CLASSIC AND PERSONALISED EVENTS

No two events are ever the same, Fabrique des Lumières can be reserved for your event outside its public opening hours.

- The layout of the spaces and the on-site technical equipment make Fabrique des Lumières the ideal location to create an evening event that combines an immersion in art history with the option of your own customised projections.
- The venue's nineteenth-century industrial decor provides a unique setting. You can use the spaces to project content of your choosing as well as display your product(s) or collection(s) in an impressive setting.
- All our spaces can be reserved for cocktail parties, receptions, dinners, corporate presentations, product launches or other. The service includes the rentable spaces and the projection of our current immersive exhibitions (total duration: approx. 50 minutes).
- Catering and other services are additional, service providers will need to be selected from the list of approved partners.

MANY EVENT CUSTOMISATION OPTIONS

You can choose between:

- Elegant lighting options that enhance the venue's architecture.
- Screening of the current immersive exhibitions: offer your guests the experience of masterpieces by the most celebrated artists brought to life before your eyes, accompanied by music.
- A catalogue of still or animated ambiances is available for you to choose from to create the desired atmosphere for your event.
- Your personalised world: you can project your own video, logo or presentation onto the walls of the Hall.

FULL PERSONALISATION

- Our partners are at your disposal to help you design an entirely personalised show: the creation of a synopsis, scenography or animation of your media (photos, logos, videos, sound, etc.), its soundtrack and the full integration of your project into our multimedia equipment.

Please contact our Events Team for more information on prices and options.

PRIVATE VISITS

PRIVATE MUSEUM VISIT

- Offer your guests a private visit of the current exhibitions in the evenings from 18.00 to 20.00
- One viewing of the current immersive exhibition program (duration approx 1h) is included.
- A optional service of one drink and snack can be served.
- For up to maximum of 100 guests.
- From Mondays to Thursdays, outside public opening times

Please contact our Events Team for more information on prices and options.

BACKGROUND

Created by Culturespaces, Fabrique des Lumières is a digital art centre located in the Zuiveringshal of Amsterdam's Westergasfabriek. Using cutting-edge technology with light projections and music, Fabrique des Lumières features immersive exhibitions of classical, modern, and contemporary artists. Our visitors can enjoy a high-quality visual and audio art experience that is perfectly adapted to the 19th century historic building we are located in. The immersive exhibitions are projected onto all surfaces of the walls and floors of Fabrique des Lumières making it a full sensory encounter.

With our innovative and highly advanced technical equipment, Fabrique des Lumières provides the perfect opportunity for tailor made events with your presentation, logo or product(s) in an impressive setting and adapted to your taste and desired atmosphere. Fabrique des Lumières can accommodate up to 1,000 people for meetings, dinners, (fashion) shows, product launches or company presentations. Note: The Hall can be divided into three spaces, so you can host multiple programme components in the same building.

HISTORY OF THE ZUIVERINGSHAL

Westergasfabriek is just a stone's throw away from Amsterdam's city centre, Central Station, and the A10 ring road, making it easily accessible by various means of transport. Built in 1883 by the British Imperial Continental Gas Association to light the city's streets, the unique 4-hectare location used to be the largest coal-fired gasworks in the Netherlands. In the Zuiveringshal, the gas was purified in large boilers with sand and chemicals. After the closing of the factory in the late 1960s, the site was left unused. Since 2003, the industrial monument has been lighting up the city again as a centre for arts, culture and hospitality venues.
